

IHEJIRIKA ALEXANDER ONYEKA

Aspiring Full-Stack Web Developer

Lagos, Nigeria • onyeihejirika@gmail.com • +234 706 546 8075 • github.com/ihejirika-web

PROFESSIONAL SUMMARY

Aspiring Full-Stack Web Developer focused on building responsive, user-friendly, and interactive web applications. Experienced through hands-on projects using HTML5, CSS3, JavaScript, Local Storage, responsive design, and API integration. Currently continuing to develop modern web-development skills, with React included in my current learning journey. Motivated to turn ideas into practical digital solutions and grow through real-world projects.

TECHNICAL SKILLS

HTML5	CSS3	JavaScript
Responsive Web Design	Git & GitHub	Local Storage
API Integration	Flexbox & CSS Grid	Problem Solving

FEATURED PROJECTS

ShopEase E-Commerce

Responsive e-commerce shopping cart built with HTML, CSS and JavaScript. Features product search, add-to-cart functionality, quantity management, automatic totals, Local Storage, and a responsive interface.

Portfolio Website

Professional personal portfolio featuring project showcases, skills, contact information, dark/light mode, animations, responsive design, and interactive JavaScript features.

Banking Dashboard

Interactive banking dashboard with deposit, withdrawal, transaction search, and Local Storage functionality.

Expense Tracker

Web application for managing income and expenses with automatic balance calculation.

Weather App

Weather application demonstrating API integration and dynamic display of weather information.

Productivity & Utility Apps

Built practical projects including a Calculator, To-Do List, Digital Clock, Password Generator, and Notes App to strengthen JavaScript and DOM skills.

DEVELOPMENT JOURNEY

2026 — Full-Stack Web Development Learning Journey

Hands-on development practice covering HTML, CSS, JavaScript, responsive interfaces, browser storage, APIs, Git/GitHub, and project-based problem solving. Currently progressing toward modern full-stack development with React.

CAREER OBJECTIVE

To grow into a professional Full-Stack Developer, contribute to impactful software projects, and build reliable, modern applications that solve real-life problems.
